

2022-23 Alternative Application Student Record School File Layout Specifications

OVERVIEW:

- A) ISAC creates an Alternative Application Student Record for each student who completes the Alternative Application. The Alternative Application Student Record contains all of the information reported on the Alternative Application, much like the Institutional Student Information Record (ISIR) provides all the information reported on the Free Application for Federal Student Aid (FAFSA).
- B) Alternative Application data that is critical to determining eligibility for the Monetary Award Program (MAP) is provided to schools in the Gift Assistance Programs (GAP) Access portal for each student who has listed that college as a school choice on the student's Alternative Application.
- C) Similar to how ISIRs are imported from the U.S Department of Education (ED), complete Alternative Application Student Records may be uploaded to colleges' internal system(s). Reports can be extracted from the MAP system in GAP Access by selecting the File Extractions tab, choosing the Alternative Application Student Record option from the Select Report drop down menu, and entering a date range of the records being requested.
- D) The following Alternative Application Student Record School File Layout provides details about:
 - field names,
 - length of the data fields, and
 - start and end positions for the data elements.
- E) The order of the data in the file layout follows the Institutional Student Information Record (ISIR). The values and the formatting used on the Alternative Application Student Record are the same as those used on the ISIR provided by ED for FAFSA applicants, unless otherwise noted.
- F) Creating or uploading Alternative Application Student Record files to colleges' internal systems is not required. Instead, the relevant student applicant data that is provided in GAP Access may be relied upon to administer MAP for both FAFSA and Alternative Application applicants.

2022-23 Alternative Application Student Record School File Layout Specifications

Position		Field #	Field Name	Populated when applicable	Data Format (same values and formatting as ISIR unless otherwise noted)
Start	End				
1	1	1	Year Indicator	Yes	
2	10	2	ISAC ID Number	Yes
