State Scholar Program (SSP) Online User Guide

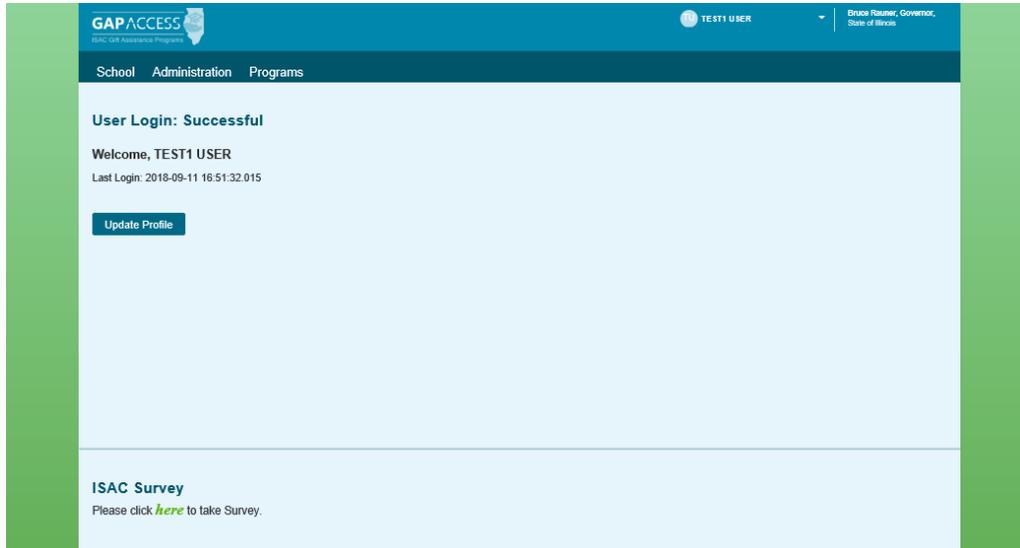

One option that high schools can use to submit the required sixth semester data, used to designate Illinois State Scholars, is to submit individual records via the online process in the GAP Access Portal.

1. Your GAP Access account must be activated before you can log in to the GAP Access system.
2. Login to GAP Access. The system will time out when it is idle for 20 minutes. Be sure to log out whenever you leave your desk.

A screenshot of the GAP ACCESS User Login page. The page has a blue header with the GAP ACCESS logo and "ISAC Gift Assistance Programs" on the left, and "Ethics Officer, Governor, State of Illinois" on the right. Below the header is a dark blue bar with "User Login" in white. The main content area is light blue and contains a "Login" section with two input fields for "User ID" and "Password", and a blue "Login" button. Below the button are links for "Forgot Password? Forgot User ID?" and "Click here to register". A "COMPUTER SYSTEM USAGE WARNING" section follows, containing a disclaimer about the system's use. At the bottom, there is a blue footer with links for "Contact ISAC", "FAQs", "MAP Program Information", "ING Program Information", and "IVG Program Information". The page is framed by a green border.

3. Select State Scholar from the ribbon at the top of the Successful Login screen

Once you have entered the State Scholar system:

- The log out option appears at the top of each page, in the toolbar.
- A print icon appears in the top right corner of each screen.

State Scholar Program: School Screen

The screenshot displays the 'State Scholar Program: Search By School: Results' page. The school name is 'ILLINOIS HIGH SCHOOL 55555'. The page is divided into sections for school information, contact details, and a data entry table. A red box highlights the data entry fields in the table, and a yellow message box on the right contains a notification about new information.

Grad Year	6th Sem Class Size	Unweighted GPA Scale	Students Tested ACT / SAT	Roster Type Submitted	Roster Received	Does School Rank?	Students Submitted	State Scholars Selected	Certs Printed By	Run Selection
2018	4	004.000	2	S	09/13/2018	N	2		ISAC	<input type="checkbox"/>

- In order to begin processing for an academic year, school specific data must be entered. **Enter the 6th Semester Class Size, Unweighted GPA and answer the question Does School Rank? Y (yes) or N (no)**

If your school ranks, only report the students unweighted rank, **we do not need both rank and unweighted GPA.**

- Messages** - ISAC will share important program updates as they become available.

6. Obtaining Certificates of Achievement

Certs Printed By field. This field will default to I- ISAC. If your school would like to print your students' certificates, select S-School. This option will only be available until early November.

- Schools that do not choose to download and print their own certificates may instead wait for ISAC to mail printed Certificates of Achievement to the high school.
- High schools that download their own certificates will not receive the ISAC-printed Certificates of Achievements in late November/early December.

7. Option to include eligible students in early State Scholars processing cycle.

Early announcement of Scholars allows students to include the honorary designation of State Scholar on college admission and merit-based scholarship applications.

Once the student data has been entered and saved, the school may check the “Run Selection” field to participate in the early announcement processing. **By checking this field, you are agreeing to include your students in the early announcement processing.**

Schools that do not wish to include their students in the early announcement processing, will be considered for State Scholar designation when the last announcement takes place at the end of the cycle.

8. Click the Save button

Once the class information has been entered and saved, this will activate the academic year link in the Graduation Year column of the School screen. Click on the link (for example, 2018 for the 2017-18 Scholars), and all students from the selected high school who authorized the release of their ACT/SAT test scores to ISAC will display on the School List Eligibility screen, with each student record appearing in its own row.

State Scholar Program: School List Eligibility Screen

The purpose of the School List Eligibility screen is allow high schools to provide ISAC with the required sixth semester data used in determining which students will be designated as Illinois State Scholars. This screen may also be used to review data that had been previously submitted to ISAC via an alternative method.

High Schools are required to submit data for the entire class and the applicable disqualification codes for students who do not meet the eligibility criteria.

The rows that display per page may be increased by selecting the desired number (up to 100) from the “Entries displayed” drop-down menu that appears just above the column headers. The default value is 10 entries per page. If the number of records for the school exceeds 100, use the arrows that display in the bottom right corner of the screen to navigate to next or prior page(s).

The Filter option (located on the far right of the screen, just above the column headers) may be used to search for specific records. For example, type in a student’s last name to locate that student’s record.
