Beginning the Process

Define/Refine your why

He who has a why can . . . bear almost any how. ~ Frederick Nietzsche

- What is your educational mission statement?
- What is your educational vision statement?
- Looking at these two statements, how is postsecondary and career readiness referenced or reinforced?
- What does the quantitative data related to your students' readiness say? (Consider data from your Illinois Report Card, such as 9th grade on track, early college coursework, graduation rate, postsecondary enrollment, and community college remediation)
- Why do you feel that postsecondary and career readiness is important?
- What is your definition of postsecondary and career readiness?

Time to Reflect

What are your personal postsecondary and career expectations for your students?

Are these in line with the expectations of your school/district?
